## **StudentScreening**

*StudentScreening - Student Background Check Program*

Tampa, Mar 10, 2012 -- StudentScreen - Student Background Check Program provided by AllStar Backgrounds.

In order to maintain the reputation and high level of integrity demanded by many educational institutions. AllStar Backgrounds provides specialized security checks for incoming students as well as internship placement.

AllStar Backgrounds offers a fully integrated web-based solution that connects the clinical site, the school and the student so that the background check requirement is easily managed. AllStar Backgrounds also assures that the various responsibilities of the background check requirement are appropriately handled. The StudentScreening program is provided to the school and clinical site at no cost and is a fully integrated online system, eliminating paper copies and email updates between the school and clinical site. Students are responsible for a flat-rate payment and, in return, the clinical site has access to a comprehensive, in-depth background report.

Drug screening is an important part of the student background check process to avoid potential liabilities. AllStar Backgrounds offers a comprehensive solution for drug screening and acts as a third-party administrator that handles all of the details for the drug screening program.

AllStar Backgrounds makes StudentScreening simple.

The Joint Commission on Accreditation of Healthcare Organizations (JCAHO) now requires all students, volunteers & employees in participating facilities to undergo a background check prior to being accepted into any program in a medical facility (01/2004). This is not a state or federal law, but a rule implemented by JCAHO to ensure patient safety.

About The Joint Commission on Accreditation of Healthcare Organizations (JCAHO)

An independent, not-for-profit organization, The Joint Commission accredits and certifies more than 19,000 health care organizations and programs in the United States. Joint Commission accreditation and certification is recognized nationwide as a symbol of quality that reflects an organization's commitment to meeting certain

performance standards. Their mission is to continuously improve health care for the public, in collaboration with other stakeholders, by evaluating health care organizations and inspiring them to excel in providing safe and effective care of the highest quality and value.
